

### REMARKS

Claims 2, 3 and 5 have been allowed. A Notice Regarding Drawings and Form PTO-948 were mailed on March 24, 2004 and requested submission of corrected formal drawings.

During preparation of the new formal drawings, an error was noted in the original Figure 6 where the sequence of the *rpoB* gene fragment from *Mycobacterium kansasii* (SEQ ID NO:8) contains a blank "-" at position 194. The correct sequence contains a cytosine "c" in the corresponding position 167 of SEQ ID NO:8. The correction is shown in red on the attached. The Examiner's approval of this correction is requested. Since the issue fee was paid on December 15, 2003, waiver of the requirements of 37 C.F.R. 1.312 and entry of this Amendment are requested in accordance with 1280 OG 918.

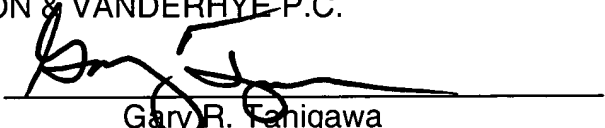

Formal drawings containing this correction and in compliance with the Official Draftsperson's comments in Form PTO-948 are attached.

Applicants submit that the claims remain allowable for the reasons of record. Early issuance of this patent is earnestly solicited. The Examiner is invited to contact the undersigned if any further information is required.

Respectfully submitted,

NIXON & VANDERHYTE P.C.
